BLACK-REPUBLICAN DISPATCHES TO THE NORTHERN PRESS.

Washington, July 5 .- The president's mes sage gives great satisfaction to extreme republicens; but notwithstanding some projects for pacification will be brought forward and the measa e thoroughly discussed, which will prolong the session. The movements across the river test night and to-day are significant. Several batteries have passed over, including Sherman's, which went over to-night.

Guns of the heaviest caliber have been convaved across to put in position on the hights. It is expected that Patterson and Johnston have had a great fight to-day. Last night Johnston had been reinforced, and had fifteen thousand men under him, about seven miles d stant from Patterson's column, so if he has not recreated again, we may hear of a great battle to morrow. A. H. Stephens predicted that the first great fight would take place near

Harper's Perry. We have heard from Mathias' Point to-day. The confederates have finished the botteries commenced by Ward, and mounted with rifled cannon, supported by sixteen hundred men.
